Journal Information

Full Journal Title: Korean Journal for Food Science of Animal Resources

ISO Abbrev. Title: Korean J. Food Sci. Anim. Resour.

JCR Abbrev. Title: KOREAN J FOOD SCI AN

ISSN: 1225-8563

Issues/Year: 6

Language: KOREAN

Journal Country/Territory: SOUTH KOREA

Publisher: KOREAN SOC FOOD SCIENCE ANIMAL RESOURCES

Publisher Address: 615, COLL ANIMAL BIOSCIENCE & TECHNOLOGY, KONKUK UNIV, SEOUL 143-701, SOUTH KOREA

Subject Categories: FOOD SCIENCE & TECHNOLOGY

Journal Impact Factor

Cites in 2014 to items published in: 2013 = 23 Number of items published in: 2013 = 102
 2012 = 30 2012 = 110
 Sum: 53 Sum: 212

Calculation: $\frac{\text{Cites to recent items}}{\text{Number of recent items}} = \frac{53}{212} = 0.250$

5-Year Journal Impact Factor

Cites in {2014} to items published in: 2013 = 23 Number of items published in: 2013 = 102
 2012 = 30 2012 = 110
 2011 = 33 2011 = 119
 2010 = 36 2010 = 127
 2009 = 23 2009 = 92
 Sum: 145 Sum: 550

Calculation: $\frac{\text{Cites to recent items}}{\text{Number of recent items}} = \frac{145}{550} = 0.264$

Journal Self Cites

The tables show the contribution of the journal's self cites to its impact factor. This information is also represented in the [cited journal graph](#).

Total Cites	217	Self Cites	102 (47% of 217)
Cites to Years Used in Impact Factor Calculation	53	Self Cites to Years Used in Impact Factor Calculation	24 (45% of 53)
Impact Factor	0.250	Impact Factor without Self Cites	0.137

Journal Immediacy Index

Cites in 2014 to items published in 2014 = 6
 Number of items published in 2014 = 109

Calculation: $\frac{\text{Cites to current items}}{\text{Number of current items}} = \frac{6}{109} = 0.055$

Journal Cited Half-Life ▲

The cited half-life for the journal is the median age of its items cited in the current JCR year. Half of the citations to the journal are to items published within the cited half-life.

Cited Half-Life: 4.5 years

Breakdown of the citations *to the journal* by the cumulative percent of 2014 cites to items published in the following years:

Cited Year	2014	2013	2012	2011	2010	2009	2008	2007	2006	2005	2004-all
# Cites from 2014	6	23	30	33	36	23	17	12	9	5	23
Cumulative %	2.76	13.36	27.19	42.40	58.99	69.59	77.42	82.95	87.10	89.40	100

Cited Half-Life Calculations:

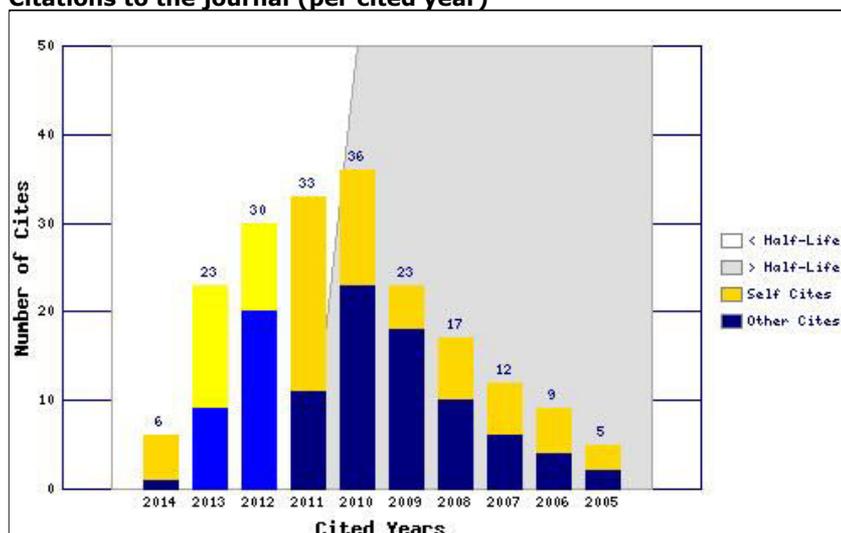

The cited half-life calculation finds the number of publication years from the current JCR year that account for 50% of citations received by the journal. Read help for more information on the calculation.

Cited Journal Graph ▲

[Click here for Cited Journal data table](#)

This graph shows the distribution by cited year of citations to items published in the journal KOREAN J FOOD SCI AN.

Citations to the journal (per cited year)

- The white/grey division indicates the cited half-life (if < 10.0). Half of the journal's cited items were published more recently than the cited half-life.

- The top (gold) portion of each column indicates Journal Self Citations: citations to items in the journal from items in the same journal.

- The bottom (blue) portion of each column indicates Non-Self Citations: citations to the journal from items in other journals.

- The two lighter columns indicate citations used to calculate the Impact Factor (always the 2nd and 3rd columns).

Journal Citing Half-Life ▲

The citing half-life for the journal is the median age of the items the journal cited in the current JCR year. Half of the citations in the journal are to items published within the citing half-life.

Citing Half-Life: >10.0 years

Breakdown of the citations *from the journal* by the cumulative percent of 2014 cites to items published in the following years:

Cited Year	2014	2013	2012	2011	2010	2009	2008	2007	2006	2005	2004-all
# Cites from 2014	49	143	169	186	180	174	160	189	182	157	1903
Cumulative %	1.40	5.50	10.34	15.66	20.82	25.80	30.38	35.80	41.01	45.50	100

Citing Half-Life Calculations:

The citing half-life calculation finds the number of publication years from the current JCR year that account for 50% of citations in the journal. Read help for more information on the calculation.

Citing Journal Graph ▲

[Click here for Citing Journal data table](#)

This graph shows the distribution by cited year of citations from current-year items in the journal KOREAN J FOOD SCI AN.

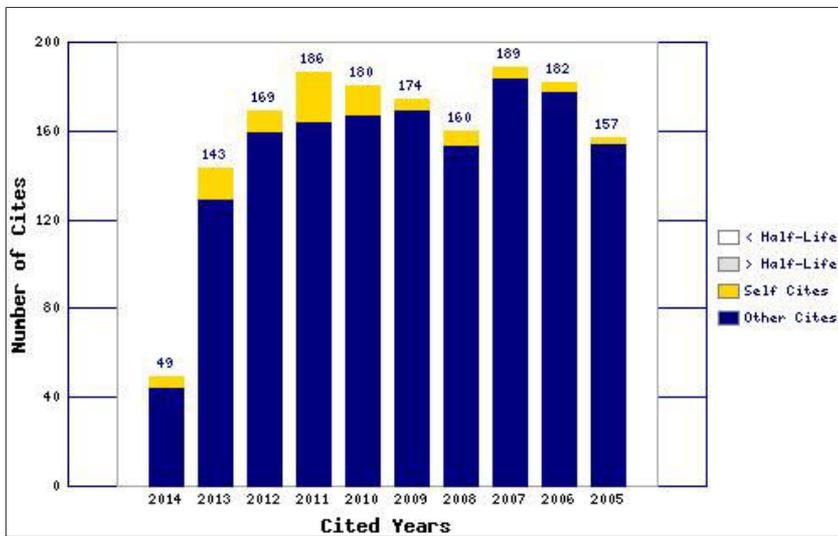

Citations from the journal (per cited year)

- The white/grey division indicates the citing half-life (if < 10.0). Half of the citations from the journal's current items are to items published more recently than the citing half-life.

- The top (gold) portion of each column indicates Journal Self-Citations: citations from items in the journal to items in the same journal.

- The bottom (blue) portion of each column indicates Non-Self Citations: citations from the journal to items in

other journals.

**Impact Factor -- see below for calculations*

The journal impact factor is a measure of the frequency with which the "average article" in a journal has been cited in a particular year. The impact factor will help you evaluate a journal's relative importance, especially when you compare it to others in the same field. For more bibliometric data and information on this and other journal titles click on the "Return to Journal" button.

NOTE: Title changes and coverage changes may result in no impact factor for one or more years in the above graph.

2014 Impact Factor

Cites in 2014 to articles published in:	2013 = 23	Number of articles published in:	2013 = 102
	2012 = 30		2012 = 110
	Sum: 53		Sum: 212

Calculation: $\frac{\text{Cites to recent articles}}{\text{Number of recent articles}} = \frac{53}{212} = \mathbf{0.250}$

2013 Impact Factor

Cites in 2013 to articles published in:	2012 = 20	Number of articles published in:	2012 = 110
	2011 = 38		2011 = 119
	Sum: 58		Sum: 229

Calculation: $\frac{\text{Cites to recent articles}}{\text{Number of recent articles}} = \frac{58}{229} = \mathbf{0.253}$

2012 Impact Factor

Cites in 2012 to articles published in:	2011 = 16	Number of articles published in:	2011 = 119
	2010 = 45		2010 = 127
	Sum: 61		Sum: 246

Calculation: $\frac{\text{Cites to recent articles}}{\text{Number of recent articles}} = \frac{61}{246} = \mathbf{0.248}$

2011 Impact Factor

Rank in Category: Korean Journal for Food Science of Animal Resource...

Journal Ranking ⓘ

For 2014, the journal **Korean Journal for Food Science of Animal Resource...** has an Impact Factor of **0.250**.

This table shows the ranking of this journal in its subject categories based on Impact Factor.

Category Name	Total Journals in Category	Journal Rank in Category	Quartile in Category
FOOD SCIENCE & TECHNOLOGY	123	114	Q4

Category Box Plot ⓘ

For 2014, the journal **Korean Journal for Food Science of Animal Resource...** has an Impact Factor of **0.250**.

This is a box plot of the subject category or categories to which the journal has been assigned. It provides information about the distribution of journals based on Impact Factor values. It shows median, 25th and 75th percentiles, and the extreme values of the distribution.
